CAREER OBJECTIVE

I am a final-year B.Tech Artificial Intelligence and Data Science student seeking an opportunity to start my career in a good organization where I can use my knowledge of Python and Java, improve my skills, learn new technologies, and contribute to the growth of the company.

EDUCATIONS

Bachelor of Technology – Artificial Intelligence and Data Science
Kongunadu College of Engineering and Technology *2023 – 2027*
CGPA - 83.9/100

Higher Secondary Education
Brindhavan Higher Secondary School *2021 - 2023*
Percentage - 88%

PROJECTS

Machine Learning & AI Project - Developed an AI-based system to detect weapons in real time. Used live camera input and generated alert notifications. Real-Time Weapon Detection System (Python, YOLOv8, OpenCV).
Natural Language Processing Project - Developed a system that interprets sign language into meaningful text using NLP techniques and TF-IDF.
IoT-Based Safety & Tracking System - Designed an IoT safety system using ESP32 with GSM, GPS, and LoRa for long-distance alert and location tracking.

TECHNICAL SKILLS

Programming Languages	:	Java, Python
Web Technology	:	HTML, CSS, JavaScript
Tools	:	PowerBI, Canva, VS Code,
Database	:	SQL
Soft Skills	:	Leadership, Teamwork, Communication

INTERNSHIP & TRAINING

Web Design and Poster Design (6 Months) ***- (PencilBitz & Bookbytes)***

- Designed websites, posters, and social media creatives.
- Worked on client-based design projects and improved UI design skills.

Natural Language Processing Internship (15 Days) ***- (Sun Software Solution)***

- Hands-on experience with NLP libraries like NLTK and spaCy
- Implemented text preprocessing and feature extraction techniques

POSITIONS OF RESPONSIBILITY

- **Secretary** – AI & DS Department (2026-2027)
- **Joint Secretary** – AI & DS Department (2025-2026)
- **Treasurer** – AI & DS Department (2024-2025)

ACHIEVEMENTS

- Finalist & Team Leader – CMR Hackfest 3.0
- Participated in Tezario 2K25 and OX.Day Hackathon
- Organized technical workshops, seminars, symposiums, and department events
- Designed posters, event banners, and promotional materials for technical and non-technical events
- Led student teams in planning and coordinating college event
